Letter of Recommendation

To Whom It May Concern

In March 2013 The Quadpara Association of the Western Cape (QAWC) commissioned Cyber Graphics to redesign and host our website. Cyber Graphics were quick to grasp and understand our needs and requirements for our website. They made valuable suggestions and recommendations and we were always made to feel as though our website was their priority.

The Cyber Graphics team were always quick to answer queries and to make any changes that we requested. QAWC is extremely happy with the final website which Cyber Graphics presented to us. We have received a very high level of service from Cyber Graphics and have been extremely satisfied in all of our dealings with them.

This, coupled with the fast, friendly, efficient and thoughtful manner in which we were dealt with means that we are delighted to be able to recommend Cyber Graphics without any reservation.

Should you wish to discuss our experience with Cyber Graphics, please do not hesitate to contact me on the number above.

Yours sincerely

A Ghillino

Anthony Ghillino
QAWC Project Manager
